Subject: RE: [EXTERNAL] Re: Draft 2017 PPMR Update
Attachments: Final PPMR Update - 2016.pdf; [EXTERNAL] PPMR tables & figures request

Sorry, had this drafted, but didn't send last week. Here is the 2016 version of the PPMR. It contains all the tables and figures that are not recommended for modification.

Lynn – Since the original PPMR and the priority evaluation were prepared at the same time, the Agencies commented on these two documents together. Attachment A includes the Agencies comments on the PPMR and priority evaluation. Attachment B contains Aerojet's original ranking proposal in the priority evaluation. Attachment C should contain all responses to Agency comments on each version of the PPMR; however, it appears we have been a bit remiss on including the final cover letters and responses since 2014. I will update the document to include the response to comments received in 2015, 2016 and include this year's responses to comments also.

Daewon – Your questions in the attached email are valid and should be included in your comments on the proposed revisions.

- I don't see why Area 41 should be considered a priority at this time.
- AR will no longer conduct manufacturing in the Central OU, so references should be updated.
- Section 3.2 contains background information regarding creation of the source area OUs. Other OUs are not listed because they were already identified in the PCD. OU-6 (BOU) needs to remain in this section. Additional text could be added to document that the ROD has been issued for this OU.

Subject: [EXTERNAL] Re: Draft 2017 PPMR Update

Hi, Chris.

Could you please send all of the Tables and Figures for the PPMR? I only have Table 2-1 and 5-1, and no Figures.

Regarding Attachments A, B, & C... not sure I understand; will Attachment A consist of Agency comments from Nov 2017? And Attachment C will consist of AR's response in Dec 2017 to Agency comments? Can you please send us Attachment B (AR's 2017 priority ranking)? It would also be helpful if you could send us Attachments A, B, & C from 2016 please.

Thank you,
Lynn

Hi Everyone – Please review the attached draft update to the Program Plan Modification Report and provide your comments by December 1, 2017. The final version is due by December 22, 2017.

The updates to this document include the following:

- Language was added to document the plan for Area 40. This language was extracted from a letter sent by AR to EPA. Please edit as necessary to document the plan for management of Area 40.
- The schedule for Area 40 was added to Table 5
- The schedules we discussed during the September 2017 technical meeting have been incorporated into Table 5.
- I anticipate the FCS LUC will be finalized before this document is finalized on December 22, 2017, so I have updated the status column for that site in Table 2.

Thanks, Chris
